## DESCRIPTION

Since its launch at the 11th World Chambers Congress in June 2019, the Chambers Climate Coalition has catalysed an unprecedented mobilisation of local business leaders in support of bold action to tackle climate change. Today, members of the Coalition total more than 2,100 chambers and affiliate organisations—representing over 10 million local businesses. The event is a call to action for other local business leaders to demonstrate climate leadership, with special focus on the energy and agribusiness sectors.
